

In order to streamline the data submission process, the Federal Reserve approved combining the *Report of Changes in Organizational Structure (FR Y-10)* with the *Report of Changes in FBO Organizational Structure (FR Y-10F)*, the *Supplement to the Report of Changes in Organizational Structure (FR Y-10S)*, and the *Notification of Foreign Branch Status (FR 2058)*. Effective June 30, 2007, all report titles and form numbers will be combined into one form as the *Report of Changes in Organizational Structure (FR Y-10)*.

The FR Y-10 Online application will be modified to support these changes. The former FR Y-10F Online application will no longer be active since all domestic and foreign reporting will be combined under FR Y-10 Online for electronic submission.

Currently, the FR Y-10 is comprised of four schedules:

- Banking Schedule
- Nonbanking Schedule
- Merger Schedule
- 4(k) Schedule

To accommodate the reporting combination effective June 30, 2007, two additional schedules will be added:

- Branch, Agency, and Representative Office of FBOs Schedule
- Foreign Branches of U.S. Banking Organizations Schedule

### **Impact on Reporters**

- Reporters will continue to use the same URL as the existing FR Y-10 Online application once the reporting modification is completed:
  - <https://y10online.federalreserve.gov>
- The FR Y-10 Online application will be unavailable on June 30, 2007 in order to complete the maintenance required for the reporting modification.
- After June 29, 2007, FR Y-10 Online respondents will not be able to submit FR Y-10 reports using the old version of the form as templates. Any prior reports saved as draft cannot be submitted after June 29, 2007. **Prior draft reports that are not submitted will be lost.** Because the revised FR Y-10 reporting form contains different schedules, old reports will be incompatible with the new report-creation functionality. However, old reports will still be viewable in PDF format within the list of Previously Submitted Reports.
- Current FR Y-10 Online respondents will be able to use the same User ID and password in the combined FR Y-10 Online application.
- Revised FR Y-10 Online User Guides and User Account Request forms will be made available to all respondents prior to the June 30, 2007 implementation.

You may view the revised FR Y-10 reporting forms and instructions on the Federal Reserve Board Public Web site: (<http://www.federalreserve.gov/boarddocs/reportforms/review.cfm>) under *Recently Approved and Pending Implementation*.

If you have any questions regarding the updated FR Y-10 Online application, or the revised reporting form and instructions, please contact your local Federal Reserve Bank for assistance.
